

FACE VISOR

MHP Industries is a company that designs and produces a multitude of products from plastics using different vacuum forming techniques.

Given the current situation with COVID-19, we here at MHP wanted to see if we could provide some much needed PPE for our emergency services and other critical workers.

Our design team have developed a face visor that will;

- **Deflect liquids**
- **Protect eyes, nose and mouth**
 - **Inhibit face touching**
- **Enable people to work together in a normal manner**

FACE VISOR
