

# Eco Shield Face Visor

MHP Industries is a company that designs and produces a multitude of products from plastics using different vacuum forming techniques.

Since the Covid-19 pandemic we noted a need for a minimal risk shield for everyone. Therefore we have created a low cost face shield for the general public.

Our design team have developed a fully recyclable Eco friendly face visor that will;

- **Deflect liquids**
- **Protect eyes, nose and mouth**
  - **Inhibit face touching**
- **This should be used in minimal risk situations for personal defence**

# Eco Shield Face Visor

- Made from fully recyclable PET plastic
